CORMAC are currently developing a scheme however there are a number of stages this will need to go through a number of stages before the works are brought to site. At this stage due to current unknowns with future budgets, I cannot provide a timeframe for completion of the works however a scheme is being progressed”.

Cllr Martin proposed, seconded by Cllr Paull and the Council **resolved**:

- (i) There is no objection to the concept of the development, the Roseland Plan being in favour of re-using existing buildings.
- (ii) To avoid creating a precedent for allowing re-developed barns in the Open Countryside to be sold on the Open Market (in contravention of Roseland Policy HO3), the Council recommends that conditions be imposed similar to those that would have applied for an annex, i.e. 'conditions will be imposed, or a Section 106 agreement sought, restricting occupation....to the main householders or their relatives or dependents, to ensure that the...*re-developed barn*...remains ancillary tothe original dwelling....if the original circumstances justifying the development cease to exist.
